Subject: UIC Backlog Updates

Hey Jim, we actually only have 2 permits in backlog right now. Penneco goes into backlog on the 19th. I apologize, I thought it was earlier in the month. Here's the status of the permits below:

1. Catalyst Energy – PAS2D015BMCK
 - Entered backlog on 6/6/2021
 - Response to Comments to the Seneca Nation and "Defend Ohi-yo" is currently being drafted. EPA received 45 comments from the Seneca Nation on this draft permit.
2. Sandstone Development – PAS2R420BMCK
 - Entered backlog on 9/11/2021
 - Final permit and Response to Comments put into concurrence on 12/21/2021. Kelly Gable was sent concurrence package on 1/6/2022 – package currently with Kelly.
3. Penneco Environmental Solutions – PAS2D702BALL
 - Enters backlog on 1/19/2022
 - Draft Permit & SOB written
 - o Pausing sending through concurrence due to ongoing drinking water investigations for Penneco Sedat #3A injection well.
